

Wireless Broadband

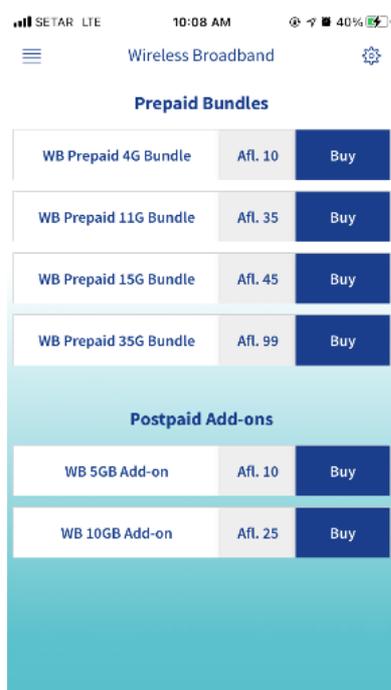

There are two ways to purchase your credit:

- SETAR Online Store (www.setar.aw/store) with a credit card
- SETAR App

How to purchase credit using the SETAR App

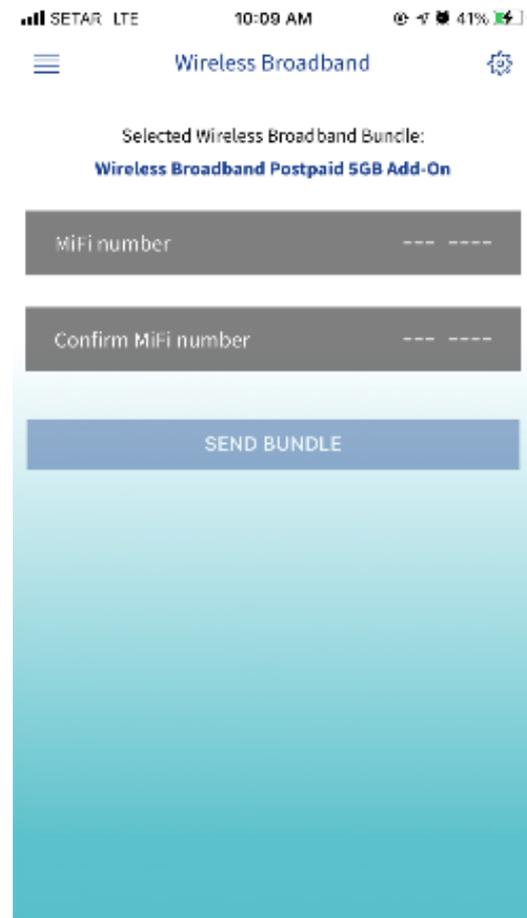

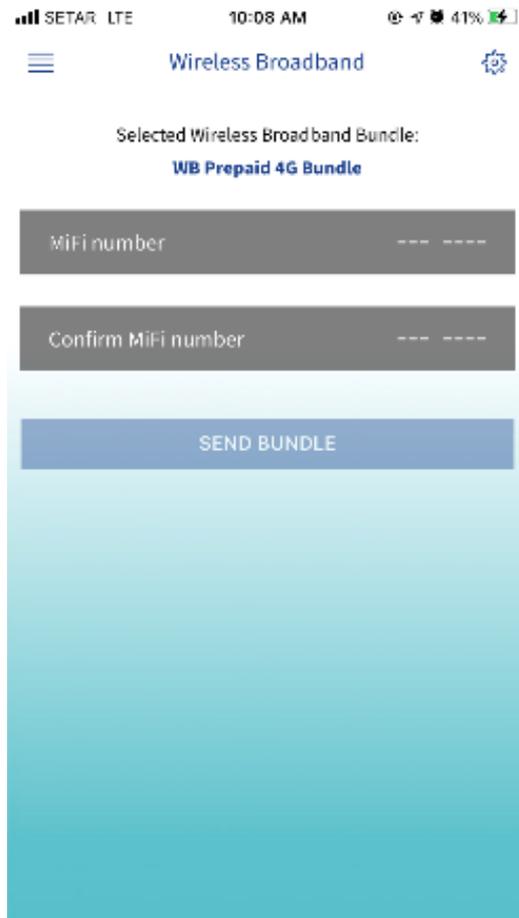

1. Open your SETAR App, TAP on the menu icon, then TAP “Wireless Broadband”

2. Select the bundle you would like to purchase. You either have a Prepaid or Postpaid* Wireless Broadband SIM card.

How to know if you have a Prepaid or a Postpaid WB SIM?
If your number starts with '59XXXXX' it's a Postpaid WB, and numbers starting with '56XXXXX' are Prepaid WB.

**You can only purchase Postpaid add-on if your current plan has no data left otherwise you will receive an error message.*

3. Enter the Wireless Broadband SIM number twice and TAP confirm.
4. Shortly after you should receive an SMS with a confirmation message.

IMPORTANT NOTE:

The Wireless Broadband bundle will be billed on your SETAR invoice by the end of the month if purchased through a Postpaid mobile, or you will be charged immediately from your Prepaid credit if purchased from a Prepaid or Hybrid plan.
